8. You will be able to access the OpenShift Sandbox environment.

Fill in all the following details

Register for a Red Hat account

Red Hat will collect your contact and account information to create your Red Hat account. We use your personal data to identify you and to provide you with information, support, and customer service. For more information, please see Red Hat's [privacy statement](#).

Need to join your organization's account?

Do not complete the form below if you need to join an existing account.
In order to access subscriptions purchased by your organization, contact an organization administrator to join, or contact [Customer Service](#) with questions.

* All fields required

Login information

Choose a Red Hat login *

Your login is a user ID for accessing your account across all Red Hat sites. It must be at least 5 characters and **cannot be changed once created**.

Choose a password *

- Must be at least 14 characters
- Must include at least one of each of the following: lowercase letters, uppercase letters, numbers, symbols
- Cannot contain the word(s) "redhat" or "password" or non-English characters

Personal information

First name *

Last name *

Email address *

Phone number *

Department *

Job role *

Contact information

Company name *

Country/Region *

Red Hat may use your personal data to inform you about its products, services, and events.

☐ Notify me about products, services, and events.

You can stop receiving marketing emails by clicking the unsubscribe link in each email or withdraw your consent at any time in the [preference center](#). See [privacy statement](#) for details.

Developer Sandbox

You are receiving this email because the Developer Sandbox account associated with **ocpbootcamp002@outlook.com** is now ready to use. Your account will be active for **30 days** at no cost to you.

At the end of the active period, your access will be terminated and all your data on the Developer Sandbox will be deleted. We will send you an email 3 days before deactivation with instructions to export your work, so you will not lose your progress.

Please log in to <https://sandbox.redhat.com/> to begin using your account.

Unsure of where to start? Check out our Developer Sandbox activities for some ideas!
